SPECIFICATIONS

Overview

Notice anything special about this center cockpit walk-through's profile? Besides the fact that it's stylish, fully equipped, and gorgeous – it's been customized and elongated beyond the original 50' size. The stern has been redesigned by Sparkman & Stephens to add 2 additional feet, giving this Gulfstar 50 a 52' LOA. It's an invaluable addition of space.

Fully air conditioned and supported by a Northern Lights generator, she comes with only approx 700 hours on her 85 hp Perkins engine and includes a 10-foot Achilles RIB and Yamaha outboard. Navigation is easy with her Raymarine C120W in the cockpit and a Garmin 478 repeater down below. And a complete set of Mack sails was made new for her in 2014.

Down below, you'll notice the walls are a light colored, Viking Teak and along with lots of ports and hatches, you have a much brighter interior than most Gulfstars of this era, without losing the richness of wood. This being a three cabin design but not needing the third cabin, it's currently being used as a two-cabin layout with a work room. But if you need a third sleeping cabin, the bunks can easily be re-installed.

This is the boat many sailors aspire to make their boats into, but all the work has been done for you. Step on board and sail away in style!

Basic Information

Category: Center Cockpit

Sub Category: Cruising Ketch

Model Year: 1980

Year Built: 1980

Country: United States

Cockpit: Yes

Dimensions
