## Overview

---

THIS 2006 TOM FEXAS DESIGN is an exceptional example of yacht building to the highest standards. "BONITA" is a rare find in the Chicago area and shows impeccably due in part to spending the entirety of her life in Great Lakes. This 84 SMY is actually 87 feet with the 3 foot platform that was extended at the factory. She was ordered to current owners specs with more than \$250,000 in customization adds that include full granite and marble upgrades everywhere possible, bow and stern thrusters with a cockpit control station. The bridge has a full custom bar with 24" "Fire Magic Grill," hot tub and room for all your toys that are loaded with the 1700 # Nautical structures crane. All appliances have been upgraded to sub zero throughout, including a 16 Cu. foot fridge in the pilothouse/galley. The master stateroom had the custom full beam, his n hers head, and enormous "rain glass" shower that is the epitome of elegance. The VIP stateroom could easily be mistaken for the master and two guest staterooms are designed for comfort and luxury. Crew's quarters are far from understated with full head and shower that even make due nicely for additional guest quarters if needed.
