Manufacturer: Mercruiser

DETAILED INFORMATION

Vessel Walkthrough

While many cruising yachts less than 40 feet in length are best-suited to overnight or brief weekend stays, Meridian's 341 Sedan has redefined the class by providing the comfortable accommodations and extra features you need for extended cruising. This cruise-ability incorporates accommodations for four in two spacious staterooms, a full-service galley with all entertainment center with a large LCD television with both salon and bridge speakers. Meridian (Designed & Built by SeaRay) offers standard underwater exhaust and the top of the line Northstar® GPS Chart Plotter which is interfaced with the SmartCraft engine reporting system and communications systems. The 341 from Meridian redefines just how much cruising comfort you can design into a compact sedan.

The 341 Sedan Bridge Meridian represents one of the most versatile layouts of any production model in this size range. The expansive interior volume features two staterooms allows for maximum privacy for both owners and guests. There is plenty of sleeping space on board, with a mid-cabin under the helm, a sofa in the salon which converts into a berth, and of course a private owner's stateroom located forward.

Docking is made simple with Meridians' patented "Docking-On-Command" (dual thrusters in one controller) and with excellent 360 degree visibility from the helm. The cockpit area offers an adjustable bucket type helm seat with additional lounge passenger seating across on the port side with additional seating aft with a removable table for dining. The aft leaning fiberglass arch and clean style lines running from the bow to the trailing end of the swim deck provides the classic and timeless appearance that Meridians are known for.

The interior layout offers a well-equipped galley with storage on the port side and a single entrance fully enclosed head with toilet and hot shower compartment to starboard between the two private cabins. The dinette area is across on the starboard side with seating for three. Forward access to the bow is provided via wide port and starboard walk ways with good hand holds all the way forward. Deck hardware is substantial both in quality and quantity being strategically located for ease of securing the vessel in docking and anchoring. The diamond cut pattern deck non-skid is throughout and offers sure footing and ease of cleaning. The transom door is positioned on the starboard side for access to the fiberglass swim platform which offers an integrated pull out and down swim boarding ladder and hot and cold transom companionway door, and that makes it easy when you're bringing a week's worth of groceries. Abundant cockpit storage lockers, convenient catch bins, and drink holders are located Owner regrettably has had to move out of state and pass this gem onto another loving owner. Initial delivery / warranty start date was on 30 Dec 2008.

Recent Service Items
