This Boat is a "must see"

Built in the USA and USCG Certified and Inspected for charter use

This is an extremely well equipped, stabilized, semi-displacement trawler in superb condition. With the semi-displacement hull and Cummins QSL9 (405hp) engine, The Path sips fuel at 7 knots (2.5 gph), effortlessly cruises up to 10 knots, and has a top speed of near 12 knots. Keypower stabilizers keep her on an even keel, even in the roughest of conditions. Long range capability and watermaker make The Path truly equipped for self sufficiency. Designer interior appointments pamper her owners in luxury.

Northwest trawlers are designed to put you in charge of your journey. The Path is a state-of-the-art vessel engineered to thrive in the demanding environment of oceans anywhere. With cutting edge construction methods, an extensive list of standard features, this modern trawler provides the serious cruiser with a self-sufficient and comfortable cruising lifestyle. If you're ready to alter course and find some adventure, consider The Path. You won't be disappointed.

Manufacturer: None

DETAILED INFORMATION

General Specifications

We constructed Northwest Trawlers using vinyl ester resins throughout, not just in the outer layers. Unlike polyester resins, vinyl ester resins can stretch up to 5% before fracturing. The Path was constructed using a uni-molding process that builds the boat with only 5 major molded components. This limits any secondary bonding and provides a much stronger integrated structure with little chance of stress cracking as there is little or no filler needed.

- Hull and deck of vacuum infused composite construction
- Kevlar layer in hull laminate located in the forward section below the waterline
- Hull Color: Fighting Lady Yellow (Awlgrip)
- Superstructure: Oyster White
- Scuppers on aft, starboard side, and foredeck
- Watertight bulkheads
- Floors, decks and major bulkheads are composite construction and laminated to hull
- Swim step integral to hull
- Interprotect 2000 barrier coat below waterline
- Black anti-fouling bottom paint
- Boot stripe
- Cap rails - molded
- Rub rails - integral molded
- Overhead halogen and LED deck lighting (24vdc) on exterior walk and outside

Flybridge

- Simrad Radar / Chart plotter NSS 12 Touchscreen, LCD display and 24" dome
- Simrad IS-12 instrument system with combination depth/speed/temp and wind functions
- Ritchie 6" compass
- VHF Radio
- Simrad Auto pilot
- Boss 321 Systems Millennia PRV16 AMFMUSB 4X40 Watt Gauge Style Display for Bridge Stereo
- JL Audio MX 650 CCX with speakers installed in overhead arch
- ZF controls, Instrumentation
- Simrad FU 25 steering system
- Electronics mast on Radar arch
- Venturi windscreen
- Bench seat with backrest behind helm.

- Storage below seat is accessed through 6 doors
- Corian work top area behind seat
- Davit and Tender (Tender not included in sale)
