## Vessel Information

---

CARBON (a 2009 Lazzara LSX75) is a rare, very customized work of art in the Lazzara LSX series. Custom features such as the aft deck retractable awning, dual generators, larger swim platform, custom salon leather flooring, larger Furuno radar, aft deck fold down TV and foredeck pop up speakers help make this LSX stand out from the rest. Along with the metallic sky blue painted hull and custom designed interior furniture with polished stainless steel trim throughout this yacht is truly one-of-a-kind. CARBON is an exclusive masterpiece in a line of express yachts that already set themselves apart.

In addition this Lazzara LSX75 is one of the very few that has been designed for both US and Med cruising complete with a 50Hz electrical system, ASEA shore power convertor, outlets that can take both US and European plugs as well as a hydraulic passarelle giving you a truly world class yacht. And with under 1,200 original hours on the main engines she is in spectacular condition. CARBON is one of those rare opportunities to own a yacht that stands apart from the rest.
