Manufacturer Provided Description

Hunter's hallmark of innovation coupled with over 25 years of experience results in a safe, easy-to-sail, and comfortable boat, making the Hunter 326 the most advanced mid-size cruiser on the market today. A creative layout boasts two private staterooms with solid privacy bulkheads, not just curtains. A spacious, well-designed salon abounds with plenty of seating and storage. The teak-trimmed galley is complete and offers a stove and microwave oven, along with an insulated icebox. There is a large head complemented with a Corian-topped vanity with storage and full shower. Topside, there's a wealth of innovations and features normally found on much larger boats. The rig, for instance, is a powerful B&R backstayless rig that allows easier sail handling with the large roach main and small jib. Hunter has even reduced the weight aloft by utilizing strategically placed mast struts and smaller mast sections. This ensures less pitching and rolling and a stronger rig. Hunter has also included its signature stainless steel arch that keeps the boom up and clear of the crew as well as keeping the cockpit clear of the mainsheet and

traveler. The arch also makes a great attachment for the optional bimini and allows for sturdy handholds moving around the large cockpit. Even the console is custom which allows for electronics, drink holders, storage and a pair of flip-up tables. No one can give you the performance, comfort and ease of sailing than Hunter.

Accommodations

As you step on the boat and into the large cockpit with lots of seating and storage, you will notice the walk through transom to the swim platform for easy boarding from the dingy or the water. Moving forward and down the companionway the galley is to starboard and the port is the aft double cabin. Moving forward to port is the head and then the main salon with ample seating and a table that will drop down and make more sleeping areas. Moving forward to the forward stateroom there is room for 2 or more.

Electronics
