SPECIFICATIONS

Overview

A nice example of the Rampage Offshore Machine. She has a full tower, Yanmar Diesels and fresh (2014) Simrad Electronics. She has been maintained in good running order and has caught a lot of fish. Her owner leaves at 3am, runs 70 miles, fishes all day and returns at 8pm, all on 240-250 gallons. Over the last year or so time to use her has diminished so she needs someone to use her. She has just had her spring cleaning and is ready to go.
