SPECIFICATIONS

Overview

This Beneteau Oceanis 40 features a self-stacking full-batten mainsail with lazy jacks, and a roller-furling genoa. All sail control lines are led aft to the cockpit for safety and convenience, and the dual helm stations provide excellent visibility. The electric windlass with handheld remote makes anchoring easy. The yacht is equipped with a full electronics package, including a color chartplotter and autopilot. The spacious cockpit has a drop leaf table, a shower, and stereo speakers.

Below is a light and airy U-shaped saloon with a large table and seating for eight. There is also a stereo/CD player with an MP3 connection and a flat screen TV/DVD player. The fore-and-aft galley is to port and has all amenities as well as ample storage and counter space. Forward is a luxurious double stateroom with head and shower and a hanging locker. Two additional double cabins with hanging lockers are aft, and another head with shower is to starboard. Opening ports and hatches provide superb ventilation throughout the yacht, and fans are in every cabin. In addition, the yacht has shore power air-conditioning.

She has been privately owned and was maintained by a professional charter fleet.

Now Freshly phased out and ready for her next adventure.

Don't wait, she is priced to sell quickly!

- Fixed three-blade propeller.
- 200-litre rotomoulded fuel tank with electronic gauge located under aft port berth.
- Sea water and diesel filter with sediment reservoir.
- Engine control panel with built-in key start located in the cockpit to starboard near the helm seat.

- The hull is of single-skinned GRP construction.
- Local areas of reinforcement (keel, rudder, chainplates, hull / deck joint) serve to strengthen the structure.
- A single-skinned structural inner moulding is bonded and laminated to the hull. Its structural role is important as it takes and absorbs the stresses at pressure points (chainplate tie rods, keel, rudder, etc.) ensuring their distribution and so guaranteeing reduced strain on the hull.
- The surface of the inner moulding makes cleaning easier and provides a better finish.
- The hull color is white

- The deck is of glass fibre and balsa sandwich construction for optimum strength / weight ratio as well as excellent heat and sound insulation.
- All working areas and areas of movement around the deck are provided with a non-slip diamond point finish.

Keel

- The keel is fitted to the boat by a system of screws and stainless steel backing plates and by bonding.
- The keel is cast-iron.
- To increase its life, the keel is given an anti-corrosion treatment and improved finish in the factory before assembly, using epoxy-based coatings and paint.
- 6' 4" Draft

Exclusions

Owner's personal belongings.
