## Overview

---

"SWORDFISH" is a beautiful example of a classic Oregon Inlet Charter boat that over the years has built a name for itself. She is a simple, great riding, efficient and low maintenance rig and with the **800hp CAT 3406E currently being rebuilt**, she will provide dependability for many years to come.

Known as a natural fish raising machine, anyone who has ever held the wheel on her has enjoyed great action. She has caught a grander blue marlin out of Oregon Inlet and countless other billfish from Va. Beach to Isla Mujeres. (Not to mention the tons of meat) She is clean and well maintained, laid out to fish very effectively and economical to operate. She is just returning from the boatyard for seasonal maintenance, upgrades and repairs and once the engine project is done she will be turn-key ready to go fishing.

Take a closer look at this rig. She's affordable and would serve many purposes, from immediate charter action to offering a beautiful foundation to personalize and transport to one of the current worldwide billfish destinations. You put her in the game and they will come to her.....

## Basic Information

---

**Category:** Sport Fisherman

**Model Year:** 1987

**Year Built:** 1987

**Country:** United States
