## Remarks

---

FIVE LADIES is a nice example of the 40' Mirage that was built on the 37/39 Bertram hull.

The original designer Dave Napier was hired to design a new super structure and bridge.

There are many improvements over to the original design including weight redistribution, prop pockets for reduced draft and more modern engines. The QSM 11 Cummins are fast, fuel efficient and quite. FIVE LADIES has very low hours and is ready to go!
