SPECIFICATIONS

Overview

The Reel Slick is a hard to come by custom built 27 footer that is powered by a single Cummins diesel. The first thing that you notice about her is how big she is. She is very beamy and is outfitted with a big, wide toe rail and extra wide painted washboards. She is very clean and simple, easy to maintain and very economical. She cruises along at 23 knots and tops out at 28, all the while just sipping fuel. She has ample storage, a nice fish box and all the electronics you need for a boat like this. If you are looking for an affordable, awesome family boat or a well laid out inlet charter boat, this is the one.
