SPECIFICATIONS

Overview

The first thing one notices about the Neptunus 56 Fly Bridge Motor-yacht is the unusual styling; this is definitely not your typical motor yacht design. It's difficult to escape the opinion that the 56 is a bit overstyled.

She's built on a deep-V hull with moderate beam, prop pockets, and a solid fiberglass bottom. The floorplan differs from most European designs in that the staterooms on the lower level are accessed from a staircase across from the galley rather than a passageway further forward, adjacent to the lower helm.

This allows for a huge dinette opposite the helm, much larger than the dinettes found in other pilothouse motor yachts this size that are often very small. With the U-shaped galley open to the salon and dinette, the Neptunus has a very social main deck layout, richly accented with high-gloss cherry joinery and furnished with many luxury amenities.

The cockpit mostly shaded by a bridge overhang—is very spacious with a transom lounge and engineroom access hatch. The side decks, however, are narrow.

A bow thruster and washer/dryer were standard. A good performer with the 800hp CATS this Neptunus cruises at 26 knots and reach a top speed near 30 knots.

Fresh bottom paint and complete wax. June 2016
