DETAILED INFORMATION

Interior Decor - Salon

Good Girl's interior decor is reminiscent of the island of St. Barts with its breezy cays and calming waters. Her designer has achieved the same relaxed ambience through use of natural wood, original avian Audubon prints, and relics from island adventures.

Grass cloth bulk-heads and Amtico harbor grey flooring throughout blend function with nature. The cabinetry has been removed from the salon, taking full advantage of her full beam and maximizing the living space. Large windows allow plentiful natural light to enter accented by lightweight curtains with coral reef patterns. The centerpiece of the salon is a crystal halo chandelier, which creates a sparkling diamond glow on the surroundings. Comfortable sofas and chairs throughout the area offer friendly venues for rest and conversation.
