Overview

Vessel Overview with Manufacturers Description

The Nordic Tug 32 is a fuel efficient cruising vessel featuring classic Nordic Tug styling. She is built in the USA and is equipped with a 220 CUMMINS diesel engine, (1366 hours). As with all Nordic Tugs, the 32' (34' LOA) has a semi-displacement hull built with hand-laid heavily reinforced fiberglass with full keel and hard chine, giving her exceptional stability and handling qualities. This very popular cruising vessel features a roomy saloon/galley and separate pilothouse with a 360 degree view and 6'8" headroom.

Forward is a V-berth with storage under and shelving outboard. She is equipped with a filler board and cushion for the V-berth. There are hanging lockers to port and a large head with a separate stall shower to stb. Up (3) NEW teak steps to the Pilothouse. Her helm is to stb with side door and double bench seat. To port is a second bench seat and side door. NEW AMTICO flooring installed in 2014. Down (2) steps to the roomy saloon, again with the NEW AMTICO flooring which has a large L-settee that converts into an oversized double berth on stb and an L-shaped galley to port. The aft companionway leads to her comfortable cockpit with transom door giving access to the swim platform. There is plenty of space for seating on the aft cabin top with high rails for security. The Cockpit has a NEW SUNBRELLA canvas cover installed in 2014. A PORTLAND PUDGY Dinghy is mounted on the swim step with WEAVER mounts and a HONDA 2hp 4-stroke outboard, both NEW in 2014.

She comes with lovely medium blue ultra-suede fabric in both the Saloon and Pilothouse and a nice neutral fabric for the V-berth cushions. Her teak cabinetry and beige curtains give the vessel a light and airy feeling. She comes with a 6KW NORTHERN LIGHTS generator with (2) AC units (aft is 16K BTU and forward is 12K BTU) and a WEBASTO Hydronic diesel heating system NEW in 2014. The overhead hatches are equipped with OCEANAIRE integrated blinds and screens. A NEW TECMA electric freshwater head was installed in 2014.
