SPECIFICATIONS

Overview

Rio Yachts prides itself as being the first, and still only, true custom builder for yachts in this size. We build according to the tastes and likes of our customers, and yet we stay price competitive. Our latest, most sophisticated and technologically advanced model to date is the Granturismo 56 - in both GT (800hp) and GTS (1,000hp) versions. This is a boat built for the individualist who is not satisfied with only the best but expects more. This is a yacht for the man who loves performance and great style. The site lines from the helm make for perfect visibility to every corner of the boat. The carbon fiber helm design, seating and the responsive power of the dual 800hp MAN engines combined with the handling and docking enhanced by joystick control, allows for a boating experience like none you have experienced. (Two hull designs are available, straight shaft or Zuess Pods - both with Joy Stick docking option) Even with all the technological advances the interior design of the 56 GT is a work of art. Virtual sky anchor, touchscreen controls and fuel optimization technology are just a few of the many innovations that will amaze you. The boat can be fully opened both in the cockpit and huge sunroof or a totally closed air conditioned space. RIO YACHTS has designed a galley that you would expect in an 80' yacht and the largest master suite in its class. The overall space will astound you.

Basic Information
