SPECIFICATIONS

Overview

'Skip'N Bou', which was born as custom yacht, is an avant-garde cruiser, which combines the naval architecture of Farr Yacht Design, synonymous of performance and safety, with the refined Italian styling of Nauta Design. Southern Wind Shipyard has given shape to this artwork, mixing advanced materials and constructions techniques. The aesthetic of Skip n'bou is modern and attractive, a panoramic deck saloon which allows a 260 degrees outlook is complemented by a generous sunbathing area, located between the crew and the central cockpit dedicated to guests.

The lay-out allows at the same time privacy for the new owner, guest and crew and great functionality in the yacht management. Note that Skip'N Bou has two separate companion ways, for guests and crew, a feature quite rare on a 80 ft yacht. Hull and deck are built using SP Systems epoxy resin, Carbon and kevlar skins, which is a promise for performance.
