SPECIFICATIONS

Overview

The spectacular C60 Sports Cabriolet "Marilee" would look very much at home in any of the glamorous European ports along the Mediterranean coast. And its long list of luxury appointments make it ideal for love of sun and sea. From the sleek hardtop with its electronic sliding glass run-roof right down to the hydraulic transom garage door near the waterline - features that must be seen to be believed.

The unique design elements that have become synonymous with Maritimo's craftsmanship have all been incorporated in the C60 Sports Cabriolet. To take in the view in this 4 stateroom yacht, salon seating is lofted and positioned forward. Driving and docking is made easy thanks to 360 degree visibility at the helm. And with the galley, bar, salon and cockpit all on one level, nobody gets left out of the conversation when you're entertaining.

It's one thing to look great tied up at the dock, but it's at sea that a C60's true value is revealed. That's when you discover how much the vessel's ride contributes to the sheer pleasure of cruising. Designed with an advanced variable deadrise hull, the Maritimo's engines are mounted forward to provide better weight distribution and a more efficient prop shaft angle of just 9 degrees. The sense of poise and balance this brings not only enhances performance, it also provides superior safety and exceptional fuel efficiency. So while others cling to the security of the shoreline, the C60 provides confidence for real long-range enjoyment.
