DETAILED INFORMATION

Manufacturer Provided Description

The Silverton 48 Convertible hull lines, drawn by Donald Blount & Associates, have been designed to handle the rigors of the Atlantic Ocean, in which Silverton water-tests their boats. With a sharp entry and wide beam, the 48 will perform safely and comfortably in most sea conditions. Modern styling combines with safety and utility topsides. A wide, molded stairway leads from the expansive cockpit to the command bridge, making access safe and easy, even in a seaway. Visibility is excellent at all points from the helm and there is plenty of comfortable seating for the mate and guest on the bridge. Wide side decks and open foredeck have molded diamond non-skid for sure footing and an oversize stainless steel bow rail adds to the security. Offering three staterooms and two heads along with an entertainment-sized salon and full service galley, the 48 will take comfort aboard to a higher level. Standard equipment will include a custom hardtop, upgradeable entertainment systems, top-of-line appliances and designer fabrics along with beautifully finished cherry woods and high-end hardware. Power options have been chosen to provide excellent economy with right balance of speed and performance.

Exclusions

Owner's personal belongings.
