This 2010 "Like New" Prowler is technically a center console open fisherman, similar in concept to a dozen others, but there the resemblance stops. This new thoroughbred features sexy lines and cockpit volume that none of the current crop can hope to match. The graceful tumblehome and classic lines are unmarred by a single gratuitous bulge or bump. Though one normally expects nothing more in an open fisherman than a porta pottie or at best a small cramped place under a seat or console, this new development from the bright minds at Marlow features a very large head with shower, natural lighting and ventilation with over six feet of headroom. But that is just the beginning of an almost unbelievable level of comfort we have achieved with this lovely work of art. The *Havana* also features a comfortable cuddy cabin equipped with large vee berths, storage lockers, and berths for two children, lots of natural light and ventilation. Young families can go for extended periods to their favorite spots sleeping aboard in comfort. Offering large fuel tank and generous liquid capacities overall, the *Havana* can go to make your longer cruising trips worry free of refueling. If your choice is the hot fishing grounds of Mexico, Jamaica or other Caribbean ports, all are within your reach in this offshore and inshore sport fisherman. Boasting the least draft of all available inboards of similar type and size, Bay, Gulf and Ocean fishing is a perfect pursuit. Powered by twin diesels as standard, or outboards if you prefer, most cruisers will be left in the wake of the Prowler *Havana*. The carefully designed cockpit offers a

one level forward fishing platform that four burly guys can fish without bumping elbows and a half dozen more can line each side for bottom fishing in offshore reefs. A flush transom door allows that trophy fish to be brought aboard into the fully equipped aft cockpit area featuring twin 200 quart built in fish boxes, live well with pump and expansive tackle storage. If diving is your forte, the built in transom door and teak swim platform with diving ladder is designed for easy entry and exit from the water with or without tanks.

DETAILED INFORMATION

Marlow 37 Havana Overview

The Marlow Prowler Havana is the newest edition to our Prowler Series. This high-tech, high-quality yacht with timeless lines, is perfect for those who want to cruise in style either offshore or inshore. Havana's sleek profile and its flag-blue and oyster-white coatings is stunning to look at. We don't know of another builder who has come close to the quality of material and workmanship that the Prowler Havana represents.

The proprietary RIVAT system of production elevates composite yacht building to a level unknown by all but a few builders worldwide. Prowler Yachts are built at Norsemen Shipyard along side the Marlow Explorer Series. Norsemen Shipyard is an environmentally conscious facility featuring the very best in advanced tools and machinery, computer systems and a talented workforce trained by some of the top master yacht builders in the world in every department.
