---

**Hull Material:** Fiberglass

## Engine Information

---

**Engines:** 1

**Manufacturer:** Crusader

**Model:** CWS

**Engine Type:** Inboard

**Fuel Type:** Gas/Petrol

---

# DETAILED INFORMATION

---

## Manufacturer Provided Description

---

The Super Air Nautique G23 represents the start of a new era, and will push your limits and expectations as a rider. Inside and out, this boat delivers an experience that surpasses every wake boat in the marketplace.

The Nautique Configurable Running Surface (NCRS) fine-tunes the hull surface under any condition using the latest technology in our Nautique LINC system. With over 2,800 lbs. of sub-floor internal ballast, the G23 offers you maximum ballast with maximum storage and a world class wake without the need for additional weight. Every inch of this hull was designed to create a wake that will work for every level of riding, at any speed and line length. This allows you to set the boat up to the preferences of every rider in the boat without sacrificing a clean lip, long transitions, and solid pop.

### Saltwater Protection for the Coastal Lifestyle

When your on water experience calls for navigating intercoastal waterways and letting the tide dictate your perfect session, Nautique's Coastal Edition package gives you the protection and versatility to bring world-class watersports performance to the conditions that come with the ocean breeze and coastal lifestyle.

### Coastal Edition Performance and Styling:

This Saltwater resistant package features a sealed steering cable, stainless steel steering tube with lubrication, zinc sacrificial anodes, stainless steel gas shocks, anodized aluminum structural components and a corrosion-resistant wiring harness. Get lost and found with the Nautique LINC systems GPS mapping and chart plotting capabilities as well as multiple displays for incredibly user-friendly navigation.

### Crusader Watersports Series (CWS) Engine

All Coastal Edition Nautique boats feature a fully freshwater cooled Crusader Watersports Series (CWS) Engine equipped with high performance aluminum heads, and Crusader's exclusive HO exhaust system. A distributorless ignition with platinum tip spark plugs stretches maintenance intervals into years, along with stainless steel components on the legendary PCM mounting system. The bullet-proof components and hardware are designed with CWS SURE COAT protective coatings to successfully withstand the rigors of saltwater use.
