*Discover the Group Beneteau Difference*

The MC5 is a collaboration which draws on the nautical and industrial know-how of Groupe Beneteau and the styling expertise of Nuvolari & Lenard, who lend their unique talent to the exterior styling as well as the whole interior layout, in addition to the designer Pierangelo Andreani who also worked on the layout and interiors.

The collaboration between Italian stylists and French naval architects, Tanguy Le Bihan and Patrick Tableau, gives the new Monte Carlo 5 her distinctive look and remarkable utility. This is one of the secrets of the group's success in the powerboat field -- its ability to mold the exciting, romantic visions of Italian visionaries with practical and experienced French naval architecture.

The designers have carefully gone over every square inch to the Monte Carlo 5 to make sure that function, utility and practicality have not been sacrificed on the alter of trendy style or simple bella figura (a beautiful display, often without substance.) As expected

from the Groupe Beneteau, performance and practicality are paramount.

The MC5 was the first of a new line of Monte Carlos and is now considered a benchmark. The MC5 brings noble values back to the heart of sailing a motor cruiser. Its design combines elegance, intelligence and simplicity resulting in a vessel in a class by itself.
