---

## 1977/1997 24 Whiticar Center Console

---

Whiticar Yachts custom built 4 inboard center consoles, this was the 24' model which was cold molded with fiberglass over top of mahogany. The owner did a complete refit on the boat in 1997 with Randolph Wood Working to include new Cummins power, electric work, wood work, paint, driplless shaft gland, fuel system, console, and much more which is documented and available.

Engine service is up to date and the boat has been kept on a lift in a covered shed. Documentation for refit is available as well as the original build sheet from Whiticar. A recent survey is also available.

The engine has a quick connect freshwater flush system and the engine has always been flushed out with freshwater after each use.

There is a Float On trailer made for the boat and available.

This is a chance to own a piece of history and a beautiful head turning custom Whiticar. Owner built boat new and has been the sole owner.
