## Overview

Ferretti 881 RPH maintains the structural excellence of the original yacht Ferretti 881, with the addition of an upper deck containing a pilot house that dominates the sea. Coming on board, the spaciousness of the interior together with the use of light tones, such as elm and soft-colored materials make the salon stand out in terms of size and luminosity. The living area has a symmetrical layout, with a double sofa on both sides. A retractable 32 inch plasma TV in the centre separates the salon from the dining area which contains a table capable of seating eight people comfortably. Situated on the lower deck, the master cabin has two large open windows on either side which make it an extremely spacious and luminous suite. In addition to the master cabin there are two twin bed cabins with en suite bathrooms and a VIP cabin in the bow. The Ferretti 881 RPH has been fitted with new engines, two 2,211 horsepower MTUs that easily meet all expectations, pushing the top speed to 29 knots with a cruising speed of 26 knots.

# DETAILED INFORMATION

## 2010 Ferretti 881 RPH

Ferretti 881 RPH maintains the structural excellence of the original yacht Ferretti 881, with the addition of an upper deck containing a pilot house that dominates the sea. Coming on board, the spaciousness of the interior together with the use of light tones, such as elm and soft-colored materials make the salon stand out in terms of size and luminosity. The living area has a symmetrical layout, with a double sofa on both sides. A retractable 40 inch TV in the center separates the salon from the dining area which contains a table capable of seating eight people comfortably. Situated on the lower deck, the master cabin has two large open windows on either side which make it an extremely spacious and luminous suite. In addition to the master cabin there are two twin bed cabins with en suite bathrooms and a VIP cabin in the bow. The Ferretti 881 RPH has been fitted with new engines, two 2,211 horsepower MTUs that easily meet all expectations, pushing the top speed to 29 knots with a cruising speed of 26 knots. ## Comments

---

This Rina "Class A", high quality constructed motor yacht, offers offshore capabilities not found on other yachts in her category. Dual Naval Anchors with heavy duty windlasses, band brakes, cats paws, sparring tubes, snubber port, corrosion proof fiberglass fuel cells, and oversized hardware, are just few of the heavy duty equipment items that make this yacht stand out from her peers.

## Exclusions

---

Owner's personal belongings.
