Galley

Providing sleeping accommodations for a family of 11 is one thing, but fixing three meals a day for the whole group is a far more daunting challenge. So I was not surprised to see that the owners had outfitted their galley with a complete complement of household-size appliances: a full-size range with conventional oven, dishwasher, trash compactor, and 24-cubic-foot Sub-Zero side-by-side refrigerator and freezer. The galley was fully capable of meeting the culinary needs of any family.

- SUB ZERO FREEZER & REFRIGERATOR UNIT, w/ICE DISPENSER
- 21" TV w/SKY SYSTEM
- BOSE AMPLIFIER AND SPEAKERS
- GE MICROWAVE OVEN
- WHIRLPOOL 4 - BURNER ELECTRIC STOVE TOP

- SMOKE ALARM SENSOR
- CARBON MONOXIDE DETECTOR
- 15 SKYLIGHTS
- DAY HEAD

Accommodations

The accommodations, accessed via steps from the starboard side of the galley, lead to a full-size washer and dryer that's tucked in under the steps, indispensable when you're cruising with 11 people

MASTER STATEROOM

Amidships is the comfortable full-beam master suite, with an adjoining full-beam his and hers head that shares a common shower enclosure. Three elliptical ports on either side bathe the space in natural light, and the owners proudly pointed out details like arched doorways.

Exterior Details

Resin-Infused Hull. The 72 features a fully resin-infused hull, rather than one constructed from layers of hand-laid fiberglass. Resin-infusion technology — the process of impregnating fiberglass with resin instead of spraying or rolling it on — produces a more uniform hull thickness and results in the most ideal glass-to-resin ratio. This creates a hull that is stiffer (because there are no voids in the fiberglass) and weighs significantly less (because of the lowered resin content). At the same time, resin infusion allows for a more precise fit of bulkheads, stringers, and other components for increased strength and durability.

Full-Featured Flybridge. The 174-square-foot flybridge, accessed from either the aft deck or the galley, features a centerline helm served by two adjustable Pompanette chairs. (For those who want more seating forward, a third chair fits nicely as an option.) The standard electronics suite includes a GPS/chartplotter, VHF radio, autopilot, and depth and temperature indicator — all the necessary navigation aids. A bar with three stools, a refrigerator, and an icemaker abaft the helm creates a casual entertainment area, and an optional electric grill is available in the starboard cabinet. Molded fiberglass seating farther aft allows for easy conversation and includes cavernous storage beneath. The standard open bridge features an arch for mounting antennas and radar. Owners can elect to add a fully integrated hardtop, along with curtains and air conditioning.

Al fresco Aft Deck. A large aft deck with molded seats and a wood table make an ideal location to relax or enjoy an al fresco meal. This area also allows easy access to the large “sport deck” swim platform and the high-flying bridge deck above.

Quality Deck Details. To port and starboard, 12-inch side decks lead safely forward, making the 72 easier to handle by an owner-operator. Cleats are recessed into the bulwark for a clean exterior profile. Forward, a large sun pad that converts into a seat is molded into the main deck. And thanks to a windlass that is recessed into a well that drains overboard, the foredeck will stay clean throughout the da
