Тип топлива: Gas/Petrol

ПОДРОБНОЕ ОПИСАНИЕ

Accommodations

The Regulator 32FS is not for the squeamish. It's a pure sportfishing dynamite! Start with the legendary ride built into every Regulator. Many call it the smoothest and most solid ride they've ever felt. It comes from Regulator's exclusive Fiberglass Grillage System, a rigid framework encased in the hull that acts as the armored backbone of the boat. Combined with an extra thick all-fiberglass hull made from the finest resins and gelcoats available, the 32 can withstand the most punishing sea states, and thanks to its deep-V sharp-entry bow and Carolina-flare design, the ride is also dry and comfortable. The Regulator 32 FS provides a level of standard accommodations and fishing features that raises the bar out of sight for the competition. Thickly padded forward seating for five rests atop twin 220-quart wet or dry storage boxes, while 360-degree coaming pads encompass the boat to cushion backs and knees. Some of the extra features that make the Regulator 32FS stellar are a 645-quart in-deck locking fish/rod storage box; 64-quart cooler under the front bench seat; fiberglass-lined 6'2" stand-up head with 35-gallon shower and sink; walk-through transom door; and combination leaning post/rigging station that houses a freshwater sink with insulated bait tray tackle storage, five rocket launchers, and rigging racks. The Regulator 32's impressive storage capacity continues with a 40-gallon recirculating livewell and 130-quart fish box in the transom, as well as a glove box and under-console dry storage bin. Two additional locking rod storage boxes are at the forward steps. For power and control, the Regulator 32FS relies on dependable Yamaha. Their Command Link Digital Network Information System features precise digital readouts of important functions on the twin Yamaha F250 four-stroke outboards. All electronics are flush mountable and are lockable behind a panel at the helm. Stainless steel fuel/water separating filters keep the lines clear, and stainless steel props provide the twist. Standard 22" x 14" Lenco tabs allow for precise trim response. Combined with Teleflex tilt and power assist steering and an Edson polished silver wheel with Power Knob, you get an easy handling powerful deepwater stalker. "Miss Carrie" include the Regulator options for the serious angler such as a solid fiberglass T-top with pre-wired electronics box, t-top mounted silver-anodized five-rod rocket launcher, custom three-sided weather curtain enclosure, and 18-foot Lee Sidewinder outriggers with laydown mounts.

Helm & Electronics

- Breakered Electrical System
- Triple Battery System with Switches
