SPECIFICATIONS

Overview

At the time of build this was the largest private Power Catamaran to ever to be constructed. This magnificent high volume Power Catamaran has been designed with multipurpose ownership in mind. The extensive accommodation for family, guests and crew allows for this true versatility. Accommodation comprises of four crew berths on the top deck behind the wheel house, three staterooms on the main deck sleeping eight guests, eighteen casual berths forward on the lower decks and six crew berths aft on the lower decks. Total berth count is an incredible thirty-six. With a maximum speed of 25+ knots and a 2000nm range at 9-10 knots, the unlimited possibility for multiple applications including commercial charter is fantastic. The hull and superstructure has been constructed using the very latest technology by High Modulus who inspected the construction at every stage. The yacht was built to DNV standard though was not necessary to be classed due to the owner's requirements. Lee Marine are the central agents for the sale of Phatsara. We are happy to provide an excellent 3D tour, video and complete up to date specification to any interested person on request.

- 2 x Caterpillar C32-25+Knots Max Speed
- Hydraulic aft platform
- Commercial galley and refrigeration
