Hull Material: Fiberglass

Hull Color: White

Hull Designer: Merritt

Engine Information

Engines: 2

Manufacturer: CAT

Model: C-32A

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Introduction

The 72' Merritt **BREE** has been maintained to the highest standards with the philosophy "keep all operations of the boat at 100 percent." In 2016, the boat received a new set of Caterpillar C32A engines with rebuilt gear and new exhaust system, as well as a new Caterpillar 24 kW generator on the starboard side. The port generator was replaced in 2014. The entire audio/visual system was replaced and revamped in 2015 and included all TVs upgraded to HD quality and a new HD dome to make for the best high definition picture. The electronics have been keeping up with an on-going technological push. In 2015, the new Airmar "chirp" transducer was installed allowing for precise images of not only the very deep bottom, but of pelagic fish in the upper water column. Also in 2015, a new 8000-series Garmin plotter/sounder was installed. In 2016, a 7000-series Garmin was put in the tower with a new Fusion bluetooth audio unit. All operations of the boat are updated and maintained with visits to the boat yard three to four times a year to maintain the owner's highest level of expectations. BREE shows like "brand new". Recent paint job. Two - Boat Owner has already taken delivery of his new Merritt. Motivated seller!
