Overview

The next owner of **MOON DANCE** truly will benefit from the careful ownership and care from the current owners, and to say that this vessel is turnkey or cruise ready is an understatement. Read through the listing and you will quickly understand why this 54' Offshore must be seen to be appreciated.

MOON DANCE has always been maintained by Hinckley Yacht Services in Savannah, GA, and has just completed major mechanical service in September 2016, prior to being placed on the market. Two coats of Sea Hawk CuKote, prepped and painted props and shafts and zincs, plus 4 new cutlass bearings have been installed. The boat has always been detailed and waxed every 4 months, including the stainless.

Details of the just completed mechanical service can be found in each category in the listing, with completed dates in each description. In addition, all purchase records, spare parts inventory and log entries are available prior to survey.
