Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Vessel Walkthrough

The 54 Offshore Designed by William Crealock has one of the softest rides on the sea and Blue Blazer is ready to cruise. The 2 stateroom 2 head layout with the full beam amidships master stateroom is ideal for the cruising couple with guests.

The spacious cockpit provides a large aft deck area with transom door access to the swim platform for water sports, boarding from the 13' Novurania 400 DL 2010 tender w/ 50 HP Yamaha 2010, relaxing, or entertaining. Cockpit controls make docking easy. There is a cockpit ladder to the bridge and internal stairs from the pilot house. The flybridge overhand and Sureshade electric retractable awning provide ample shade.

Entering from the stern, the large salon and forward galley are on the same level with the stairway to the full beam amidships master stateroom forward to starboard opposite the galley. The raised pilot house provides safety and comfort in all weather. It features modern electronics, port & starboard side doors, 2 leather Stidd helm seats, a dinette that converts to a berth, and internal stairs to the flybridge. Forward to starboard is the stairway to the forward VIP, head with separate shower, as well as the washer & dryer units.

Accessible from the cockpit or the pilot house, flybridge offers modern electronics, 2 leather Stidd helm chairs, a comfortable settee and table, and a full enclosure with a hardtop. A 6' Sureshade electric awning provides additional shade aft of the flybridge hard top. The Marquipt 1,000 Lb davit will launch and retrieve the Novurania 400DL from the flybridge storage cradle.

Wide side decks with raised bulwarks and full length bow rails provide safe and secure passage around the boat and to the foredeck. Flybridge overhangs provide shade on the side decks and in the salon & galley. In addition to the swim platform and transom door, there are port & starboard entrance gates in the side decks and rail openings forward providing multiple levels for boarding from any dock.

The hull is painted with Flag Blue Awlgrip.

Blue Blazer is powered by twin cat 660hp engines. Prop pockets reduce draft and shaft angle. The extended keel (4'8") offers protection for the props (4'1") and excellent tracking in all conditions and at slow speeds. The 15'10" beam and 58,000 Lb. displacement result in a spacious interior and a comfortable ride.

She is fitted with three control stations; pilot house, flybridge, and cockpit. Two Northern Light generators (12KW and 8KW), water maker, and an upgraded bow thruster (48 volt) complete the great cruising experience.

Recent Upgrades

Wesmar Bow Thruster upgraded to 48 volt 23hp

Maxwell Windlass 3500 handles two anchors one 65 Lb anchor on all chain 300ft; plus second 45 Lb CQR on 30ft chain and 150 rode.
