Total Cabins: 3

Total Heads: 2

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Caterpillar

Model: C12

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Manufacturer Provided Description

Our mission for this latest addition to the iconic Squadron series has always been to create the true class leader in terms of the spaciousness it would offer, relative to yachts of similar length.

In every major area this ground-breaking new Squadron succeeds admirably and two features in particular have helped us achieve this ambition - the 'full length' hull design and our unique Tender Launch system. Between them, these advances have helped make more internal space available to our designers and the result is a level of accommodation unmatched by any competitor.

First, a spectacular, light-filled master cabin. With its panoramic hull windows, overhead glazed panels and 6'6" flat headroom, its overall dimensions are of a size you won't normally find aboard any yacht less than 60'. The story continues with two spacious and beautifully appointed guest cabins, as well as two large en suite bathrooms, each with full-size showers - the perfect layout for cruising in comfort with family and friends.

Engines

- 2 x Caterpillar C12-710 Shaft Diesel 710mhp each: 31 knots
