- Parker Racor 500 series generator fuel filters
- Glendenning electrical controls
- Twin Disc gears with trolling valves

Remarks

Penade is a cold molded boat like all the best custom boats. The hull is almost an inch and a half thick made of Tongue and grooved triple layers of Honduran mahogany with west system throughout each layer and glass on the outside, west system on the inside. This boat will not disappoint her next owner.

Penade was finished in 1975 at Brownell Boat Works, one of 130 boats built by the Brownell yard since the late 50's;

The Penade was custom built for Tom and Pat Westscott and was the third Brownell they had built. With the influence of his friend and fishing buddy John Rybovich you can see a bit of

Rybovich in Penade. John once said it was the only boat he could fish on without getting seasick.

Until 2013 Penade was a one owner boat, that's 40 years one owner. That's almost unheard of. A true testament of how great the boat is.

In a restoration project that took three years every inch of **Penade** has been totally restored from stem to stern. The current owner spent well over \$700,000 on the restoration not including his labor of three years. This is a must see for anyone search for that special custom boat. You will not be disappointed in any way. Every inch of the restoration has a story to be told.

There is almost nothing on this boat that's not new or restored with the exception of the main power and generator. This boat has always been a very unique and beautiful part of Palm Beach sport fishing history. With a knowledgeable owner; a true classic has been restored into a piece of beautiful performing art combining a classic look with a modern flair.

Exclusions

Owner's personal belongings.
