SPECIFICATIONS

Overview

The boat is in standard configuration, extra options are available. The saloon doors, one of its key features, slide swiftly and quietly into the deck to create a vast common space with the stern area – perfect for leisure and relaxation. Flawless finish, high-end equipment, and exhilarating performance speak for themselves. The roof-mounted steering, complete with two sun beds, is a marvelous addition to an already stunning model and allows extra visibility in tight marinas and canals. This model was the proud winner of the 2010 World Yacht Trophies in the “best design” and “most innovative” categories for yachts under 24 meters. The 700’s interior lighting will leave you dazzled: ambient and discrete, eye-catching – but not distracting. Dispersed illumination supports bright and clear LED lights for an elegant atmosphere on board. The remote-controlled floor lights with variable color schemes provide the final touch of luxury.. Sunshine bathes the main deck through the large glass panels and windows, which can be quickly covered by the automatic blinds to offer privacy and respite for the passengers. The automatic garage and stern platform systems allow for easy, one-person operation of rafts, tenders and other personal watercrafts. The Humphree’s Interceptor System actively manages optimal trim to reduce resistance and wave-making. . The 700 Skydeck comes equipped with powerful engines and top-of-the-line electronic systems, from navigation to custom on-board entertainment. Precise finish, handcrafted materials, and comfortable leisure areas create a welcoming and luxurious atmosphere on board.
