Manufacturer: Detroit Diesel

Model: 16V-92TADDEC

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Vessel Walk Through

The 110' Broward layout is popular due to the large country kitchen, spacious salon, five staterooms and large entertainment areas on the aft deck and flybridge. Much of her interior was updated in 2017 with tasteful furnishings and soft goods. Beginning aft, the cockpit offers easy access to the water and tenders. Cabinets are located port and starboard and the cockpit offers access to the lazarette. The centerline stair leads to the large aft deck which has a port to starboard settee and large dinette centerline with a fold-down television from overhead. Starboard stairs lead up to the boat deck. Walking into the salon, immediately to starboard is a wet bar with stools and stairs to the two aft staterooms. Moving forward to port and starboard are two chairs, table and sofa on each side. The dining table is located forward of this seating area. Proceeding forward to the port side are stairs to the lower foyer, master stateroom and twin guest cabins. On the port side is a day head, foyer with side entry doors and stairs up to the raised pilothouse. Beyond this area is the large country kitchen. The galley has been updated and contains an island and large dinette. Stairs to the two crew cabins lead below deck.
