Fuel Type: Diesel

DETAILED INFORMATION

34 Swift Trawler

Comfort, stability, convenience, elegance, fuel efficiency... This boat has it all. Whether for daysailing or running the Great Loop, the Swift Trawler 34 will perfectly fit your needs. Thoughtful design enables a roomy, accommodating interior that actually feels much bigger than a 34.

While her European styling is a nice feature, it is the hull design that truly makes this boat stand out, yielding the ability to be in a trawler and cruise anywhere between 14 and 18 knots while barely sipping fuel. At wide open throttle she runs at 22 knots while still getting a mile to the gallon, truly setting this boat in a class of her own.

The Swift Trawler 34 is designed for stability in high seas and comfort at anchor, with irresistible proportions, a hull designed to take everything the sea throws at you, and a lot of liveboard space.

With surprisingly generous headroom and so much space for a 34-footer, the interior offers real room to breathe and a salon that boasts a sofa bed and generous visibility. Onboard comfort that's totally devoted to the cruising lifestyle features two "real" cabins, impressive sound insulation, unparalleled fuel economy, and a full range of clever storage solutions --just to name a few features.

If you are looking for a motor yacht or a trawler that cruises happily at moderate speed, but also has the ability to "get up and go" when you need it, with all the room and stability of a much larger vessel, you need to see this boat!

Inventory
