Overview

This new flybridge yacht plays a crucial role in the brand's development strategy. The Allmand Yachts 60, which features an unprecedented hull design, equipment and engine room arrangement and interior layout, is once again the brilliant outcome of the long-standing cooperation between the Allmand Group, its Engineering Department in particular, and the Design Atelier. This yacht combines elegance and a very sporty character, with clear-cut and yet very seducing lines. The main deck uninterrupted glazing 'cuts' the yacht's profile, increasing its dynamic look, while the three large glazed surfaces on the hull sides - the cabin windows - perfectly harmonize with the overall design and grant magnificent views from the interiors as well as plenty of natural light. The frameless fiberglass flush portholes result in very clean lines. The lowered flybridge and the new forward lounge area on the wheelhouse offer incredibly wide outdoor relaxation areas, ensuring great privacy with no impact on the craft's slender profile.
