# DETAILED INFORMATION

---

## Vessel Overview

---

**Bow** The ground tackle is concealed under a flush mounted hatch. The 26" (66 cm) high 316 SS bow rails have mid-mounted life lines for added security. Two DriFast loungers are on the bow for enjoyment at anchor, and these have multi-position backs. Polished stainless steel Bomar hatches allow light and air into the lower decks. Dual sun pads with multiple position backrests, walkthrough windshield.

**Helm Deck** The hardtop coupe has a full-height windshield and dual wipers with washer spray nozzles on the blades. The windshield has optional multiple defrosters. The ventilation comes from forward-opening side vents, a drop-down windshield at the top of the walkthrough door, and the large opening sunroof.

**A/C-Heat** Close the windows and fire up the standard 18,000 BTU cockpit air to further extend the comfort, and the 7,000 BTU below. Since these are reverse cycle units they also will provide plenty of heat if the boater is in cool climates or travel between the two.

**Helm Area** The helm seat is a split bench with dual bolsters and Ultraleather upholstery with deep comfortable cushions. The seat is double-wide with twin flip up bolsters and storage in the middle armrest. Between the seats is a box large enough to store the electronics covers. The large Volvo Penta EVC display is to the left beneath the autopilot and depth gauge. These are part of a Raymarine electronics package that also includes the twin 12 inch displays. State-of-the-art Volvo Penta QL trim tabs with indicators. To starboard and on top of the side panel are the IPS Joystick and Volvo Electronic Throttle and Shift controls. The Volvo Penta EVC display is completely customizable. Across on the port side is a large lounger. Under the seat is a large storage compartment. Seventeen stainless steel drink holders are peppered around to manage the drinks.

**Cockpit** Behind the helm is the cockpit wet bar/galley. The Corian top has a concealed sink, trash bin and carry-on cooler for clean ice to keep the drinks fresh. Electric cockpit grill cockpit ice maker/refrigerator. An aft canvas curtain. The cockpit wet bar/galley is in close proximity to the cockpit seating and helm deck. Across from the cockpit galley is J-shaped seating. The day hatch leads to the engine room for quick checks. The aft seats form a large sun lounge. An aft facing, double-wide chaise lounge makes a great place to watch the action off the stern while at anchor. Under the aft seat is plenty of storage for hydraulic platform with remote.

**Galley** The centerline cabin entry has teak and the wood steps with rubber anti-skid treads leading into the salon/galley. The port side L-shaped galley is gourmet-quality with rich deep gloss cherry cabinetry and Corian counters. There is also a sole locker. The galley equipment includes a double-burner stove with vent fan, convection microwave oven, brushed stainless steel sink, coffeemaker and upright

refrigerator/freezer. A lighted showcase wine rack complete with tempered stemware and tumblers

**Salon** This entire galley/salon area has 6'11" of headroom. The salon has a large U-shaped lounge with solid wood table and barstools. Deep gloss cherry cabinets surround the lounge, housing storage space and the entertainment center. Bose Lifestyle surround sound home theater system for the 40 inch widescreen LCD TV which can display images from the helm nav system, right down to the thermal imaging camera. Seats are soft Ultraleather and feature lumbar supports. The table drops down and filler cushions can be added to form another berth to sleep six.

**Guest Accommodations** The mid cabin stateroom has twin beds with storage under the steps, a drawer in the end of the forward bed and a quick-fill, flip-over filler to convert this into one large bed. An LCD TV is mounted on a storage door which allows the TV to swing out for viewing from the berths. There is standing headroom between the bunks, at least 5'8". This stateroom has its own separate combination head and shower. The vanity and sink are outside the head. The power distribution panel is in a wall closet just inside the entrance to the room. Twin berths easily convert to a queen sized bed. There is a full length mirror on the closet door. The back of the guest stateroom door also features a full-length mirror, with a vanity to port.

**Master Stateroom Features** include, centerline bed matching port and starboard hanging lockers, stereo CD stacker, iPod cradle mounted in the starboard locker, LCD/TV with DVD player is mounted on the wall. The Bose sound system has a zone system to pipe the surround sound into each private space. This stateroom also has a separate shower and head compartment. The two doors at the entry to the forward master are for a head and sink, to the left, and a shower to the right.

---

## Salon

---

- Deep Cherry cabinetry
- Wenge doors
