- Mase Generator and Tank Controls

---

## Manufacturer Provided Description

---

The 320EC was the most exciting project taken on in the history of World Cat. Modeled after the hugely successful 330TE platform, the 320EC is 32 feet long and 10.5 feet wide with a molded-in bow pulpit.

The helm is located on centerline, with port and starboard entry doors leading to the galley and stand-up head respectively. Both the galley and the head lead to the forward master stateroom with queen berth. Lots of lighting, portlights, and hatches provide a bright and roomy feel to the entire cabin space.

Port and starboard of the helm, lounge seating is available for 4-6 people, assuring an enjoyable ride to the fishing grounds, or the watering hole. The aft cockpit has 2 aft facing jump seats and 2 forward facing jump seats that fold away to expose an enormous fishing cockpit, even larger than our 330TE! A fuel capacity of 260 gallons will assure ample range to get to where the fish are... and back.

---

## Exclusions

---

Owner's personal belongings.

---
