## Overview

---

A rare opportunity to acquire a recently constructed motor yacht from one of the world's most prestigious builders, MY SOO TOO has to be seen by any discerning buyer in search of Italian excellence. The largest yacht in the Ferretti range, MY SOO TOO was delivered in 2015 and includes a host of useful extra accessories including upgraded air conditioning and improved AV equipment. The Ferretti 960 drew the attention of the yachting world in 2013 when it was first launched, due to its innovative transom design featuring a wet launch system for the tender and a sun pad/swim platform combination. Of the 3 engine options that Ferretti offer with this model MY SOO TOO was built with MTU 16V 2635hp units that propel the yacht to a comfortable 31 knots top speed and 27 knots cruising speed. She includes zero speed gyro stabilisers as standard equipment and the owner also opted for TRAC fin stabilisers. The owner of MY SOO TOO has paid great attention to ironing out all of the usual snagging list problems that typically occur in the first year of use for a production yacht. She is now in better than new condition and is ready for cruising.
