## Overview

---

**BLACKCAT 50 is an entirely new superyacht platform, setting the standard in large cruising catamarans. This will be the largest carbon fibre catamaran and the fastest sailing superyacht ever built, with a predicted top speed of 30+ knots. The concept has been created by a collaboration of world renowned specialists including sailor and multihull specialist Mitch Booth and Malcolm McKeon Yacht Design. Blackcat 50 will be constructed by Baltic Yachts in Prepreg carbon, with a rig & sails package developed and optimised by North Sails and Southern Spars.**

**The ultimate in single deck living, the yacht features 620m<sup>2</sup> of open exterior areas and 320m<sup>2</sup> of interior space, a walkthrough living experience on a scale never before seen on the water. Interiors by m2 atelier are in the style of a New York loft, with glass wrapped overheads adding space and light. Fully engineered, the project is ready to begin build upon signing with an expected delivery time of 30-36 months.**

Key Features: Construction in Prepreg carbon by Baltic Yachts, world leader in high end carbon composite structures

Rig & Sails package developed and optimised by North Sails and Southern Spars

Designed for performance by Malcolm McKeon

Predicted top speed of 30+ knots

Extremely lightweight (200 tons) with low drag

Efficient fuel consumption and reduced emissions under motor, with speeds up to 16 knot  
Exceptional stability, normally heeling to only 6° Shallow draft for enhanced access to bays and islands  
The ultimate in single deck living. 620m<sup>2</sup> of open exterior areas and 320m<sup>2</sup> of interior living space on one deck  
New York loft style interior by M2 Atelier with glass wrapped overheads  
Forward sun terrace with infinity pool and seating  
Capacity to store large tenders  
Customisation options available
