Fresh Bottom Job Including Prop Speed On Running Gear - August 2017

ESC on the engines until 20 October 2020 or approx 3000 hours

"Overdose" is truly a rare find in today's market. A very reputable ride and build with low hours in a late model custom sportfish. This 2010 58' Caison is a fisherman's dream. Extremely fast, agile and efficient with plenty of range. Powered with reliable and economical CAT C32's at 1675 HP, "Overdose" will low end cruise at 1800 RPM and 31.7 knots burning under approx. 98 GPH at approx. 57% engine load. Both the original owner and current owner have run her well below the recommended and very capable cruise of 37 knots. "Overdose" boasts a clean and well organized spacious cockpit including mezzanine seating and dressed with all the extras. 3 refrigerated boxes to be utilized for bait, drink or ice storage, Eskimo ice machine with discharge into an easily accessed mezzanine storage box, custom transom livewell added by the current owner in 2012, there are updated mezzanine cushions, ice cold mezzanine ac which blows out of a concealed vent running shoulder height along the mezzanine seating, all dressed in teak with custom deck, mezzanine and covering boards. A Release Marine contour series fighting chair with rocket launcher back caps off the finishing touches

As one enters the solid teak salon door they will quickly be drawn to the quality build and attention to detail that one would expect in a custom outerbanks product. A generous salon layout consisting of an L-shaped salon sofa with storage below to port, and a cleverly placed love seat to starboard. The dinette is u-shaped and sits forward to starboard and boasts a custom Release Marine table with high gloss finish and a Burl inlay. This table matches and compliments the custom salon table that pops up and opens to a dining table with foldable leafs that spread out when opened. Aft of the dinette is a bar storage arrangement that pops up on hydraulically at the touch of a button with an ice maker inboard. As expected the galley is equipped with high end appliances including GE profile undercounter refrigerator drawers (4) and sub-zero under counter freezer consisting of 2 drawers. There is an electric wolf stove top and sharp microwave convection in the overhead galley cabinet. All interior sealers and trim are in gorgeous satin teak with robust bullnose trim

Entering the companionway down teak steps with storage below the master stateroom is midship to port offering an offset queen berth, ample storage drawers below the berth as well as along the inboard and aft walls. Access to a private head lies forward.

Forward in the bow is a generous VIP stateroom with oversized upper and lower berth

with rod storage. The 3rd guest stateroom sits to starboard with an upper and lower berth and hanging locker storage.

Moving up to the flybridge you will notice a sleek clean helm console with custom teak helm pod, excellent visibility, L-shaped seating forward of the helm with a bench seat to starboard. There is even a flybridge beverage cooler. The electronics package is well equipped including the addition of a new FLIR thermal imaging camera in 2012. At this time the current owner also added a custom state of the art tuna tower by Palm Beach towers. "Overdose" is a must see, a very practical excellent performing perfect sized sportfish for those looking to get out and back in a fabulous riding convertible with just the right creature comforts.
