Overview

“New Build Opportunity”

Designed in the USA by Setzer Yacht Architects, built by artisans in Italy, this unique Vestal Series Motoryacht by Admiral represents the next generation in tri-deck motoryachts combining contemporary styling with a unique ocean going hull form. Developed with the Americas in mind and loaded with a unique set of features for a shorter tri-deck motoryacht. Included will be a large bow deck lounges with multiple sunning pads and hot tub, aft garage plus separate beach club, opening on the sea with multiple access points for sporting activities. There will be a large yacht control room outside of the engine space, crew accommodations for 6 plus captain and guest accommodations for 10 or 12 persons. Each level of the vessel is sprinkled with an assortment of details but always making sure to bring the outside in through the generous use of windows and skylights. An optional flybridge crows nest steering and observation station is featured allowing unique views to the sea for capt. and guest alike. A Fast-Displacement type of bow allows for generous crew holds forward, and additional chain and deck locker storage and goes on to influence the ability to create a large crew lounge, ship's laundry, walk-in refrigeration, larger guest staterooms, expansive owner's cabin, etc... The end result is a very well appointed 42 meter tri-deck motoryacht sized with accommodations close to those found in 50 meter vessels.

Admiral, a part of The Italian Sea Group, is quickly making its mark in the yachting industry as a premier builder of unique luxury vessels up to 100 meters. Projects are constructed in a state of the art facility featuring not only massive building halls and graving docks but also highly regarded design, engineering and interior departments affording owners great flexibility and creative solutions all under one roof.

Delivery expected 20 to 22 months after owner contracting depending on interior fit out.
