Engine Information

Engines: 2

Manufacturer: CAT

Model: C-18

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Vessel Walkthrough

No Name is a 2015 L650 Sea Ray Express that offers a four stateroom layout with three heads plus a crews quarters. The mid-ship master is full beam and a very large master head with dual sinks and large walk in shower. This yacht is powered by twin 1150hp Caterpillar C18 engines and a single 29kw Onan generator. The twin SeaKeepers keep the vessel very stable at rest. The exterior is painted in the Aurora Gold, and all the underwater lighting in blue. The bow of this yacht has great seating and sun bathing. The half moon seating with table and blue tooth music makes this area very comfortable for entertaining.

No Name has a hydraulic swim platform for that jet ski or small hard bottom inflatable. To the starboard are teak steps that give you access to the very spacious aft deck. This area has an awning that open electrically and gives plenty of shade. The aft deck has very spacious seating and a grill. Just forward of the aft deck is the salon that is accessed by a tri-panel sliding door. The salon is very large in size for a 65' yacht with the ceiling being dome in shape to allow for higher ceilings. Just forward of the salon is the galley to port which offers a wine refrigerator, dish washer, refrigerator and freezer w/ice maker. Across from the galley is a large dinette table with storage under the table. The lower helm is positioned just forward of the dinette and offers dual Stidd chairs for the captain and his first mate.

No Name offers three staterooms below. The master is mid ship and has very large side hull windows to allow natural light in and give the owners to sit seaside in their stateroom. Just forward of the master is a guest stateroom to the port and modified starboard guest stateroom that offers additional storage, pantry, and pull drawers refrigerators. The VIP stateroom is located in the bow with its own private head.

No Name is easy to show and located in south Florida. To view the slideshow type in your browser <http://> then copy and paste
