DETAILED INFORMATION

Vessel Walkthrough

Aunico is a 2015 Hatteras 60' Motor Yacht that offers three staterooms and two heads. This yacht is powered by upgraded Caterpillar C18 engines (1135hp) and dual Seakeepers. The Hatteras 60MY is a fully painted vessel by Alexseal. The profile of Aunico is complemented by the dual oval shaped mid ship hull windows that allow natural light into the full beam master stateroom. The well designed stainless railing system along the edge of the swim platform make this area safe for anyone to access. There are teak steps that lead you from the swim platform to the aft teak deck. This area is extremely spacious due to the well designed half moon seating area. The engine room access is from the aft deck or through the bustle door off the swim platform.

Aunico has a large two piece stainless sliding door that gives access to the very large salon. To the port is a large couch with a high gloss custom cocktail table. To the starboard, the owner, during the construction created a custom bar sitting area with chairs. This addition really allows for more entertaining in the salon or the galley. Just forward of the salon is the dinette to the port and the galley to starboard. The galley is full equipped with dishwasher, dual refrigerators and freezers and an ice maker. This area is also complimented by an island cabinet and a full wine refrigerator.

Aunico has three staterooms below with a full beam master. The master head offers a single sink and a very large walk in shower. The master bedroom has a king size bed with storage underneath. Just forward of the master is a stackable washer and dryer. As you make your way toward the bow to the port is a guest stateroom that has over under single beds. The VIP stateroom is in the bow and offers direct access into a private head.

Aunico has a very large bridge that is accessed from the aft deck up teak stairs. The helm is situated in the center with dual helm chairs. The L shaped sitting area is great for lunch or dinner on the high gloss teak table. This area is fully enclosed with air conditioning and teak flooring. The main helm offers the top of the line Garmin electronics. The aft area of the flybridge is great for relaxing on the lounge chairs or cooking up that dinner or lunch on the grill. This area is also equipped with a large refrigerator and ice maker. To view the slideshow of this vessel type <https://then.scottroberton.smugmug.com/Aunico-60MY-Hatteras-2015>
