SPECIFICATIONS

Overview

SEA TRAMP was custom built by an experienced yachtsman over many years in Fort Lauderdale Florida. The build was based on a Nils Lucander design and **SEA TRAMP** was purposely built for completing blue water passages safety and in total comfort.

This yacht has the agility to maneuver through shallow water and the strength, range, and equipment to engage in long range expeditions. Having the fit, finish, and comfortable layout of a fine live aboard yacht and the broad-shouldered brute strength of a go-anywhere at any time commercial boat, **SEA TRAMP** is a wonderfully unique amalgam that is equally well suited for use as a residence and as a blue-water cruiser.
