15. COMMENTS

The MOONEN MARTINIQUE is a superb example of the inventive approach that has made the Moonen brand a byword for quality in this size range. Highlights include:

- An innovative hull design and extremely efficient fast-displacement hull design using Moonen's enhanced length principle and super-light construction will give a top speed of around 16.5 knots and very low fuel consumption

- Italian-designed interior by Nauta Yachts Design
- Great family/charter layout combines large yacht practicality with small boat functionality
- Practicality of design on deck and in engine room means the yacht will be easy to maintain and provide for minimal costs of ownership and operation
- Timeless classic explorer design will not date
- Shallow draft so ideal for exploring those Pacific Islands
- Very low noise and vibration characteristics guaranteed
- Peerless Moonen build quality and strong Dutch re-sale value should minimise the new yacht downside

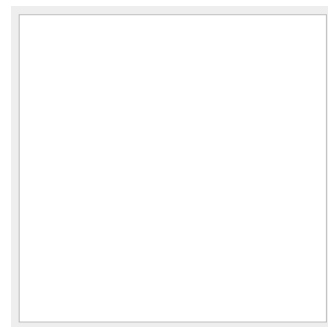

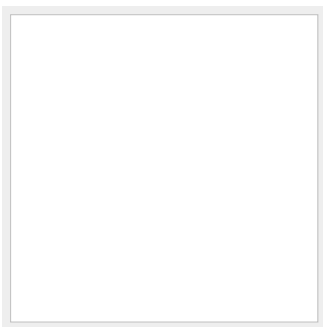

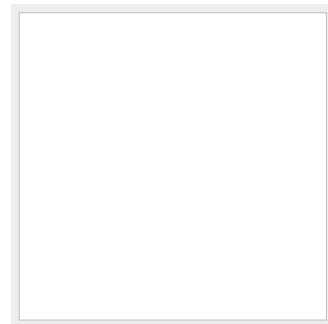

Exclusions

Owner's personal belongings.
