# DETAILED INFORMATION

---

## 2016 33' Invincible

---

Designed by renowned naval architect Michael Peters, the MPYD patented, high-performance "Stepped-Vee Ventilated Tunnel" (SVVT) hull creates the lowest drag coefficient of any mono hull in the world. This means increased speed, better fuel economy than conventional stepped hulls, and an all-around better ride. With top speeds near 67 Mph, the 320 Gallon fuel capacity will get you to the farthest fishing grounds and back with speed and comfort. Beautiful fit and finish, state-of-the-art construction, and the implementation of the highest quality materials available. This 33 Invincible is loaded with Options.

### UPGRADED OPTIONS
