# SPECIFICATIONS

---

## Overview

---

Elegance and harmony best describe this 64 Azimut Fly Bridge motor yacht. Its stylish, dynamic windows, the sweeping fin extending the fly bridge and the mirrored glass panels on the arch create the sleek profile that Azimut is famous for.

The hull and super structure are a successful attempt of finding the right balance between conventional composite materials and more innovative products such as carbon fiber. This process solidifies the structure and reduces the total weight of the boat while getting great speed with low fuel consumption.

3 en suite staterooms plus crew quarters, powerful engines and superior stability with 2 Sea Keeper gyros are excellent reasons to choose LET'S SEA as your next yacht.

---
