SPECIFICATIONS

Overview

ELIA has an elegant cabin and a roomy cockpit, which creates a comfortable ride and boating experience for everyone aboard to enjoy. With the integrated bow platform, she stands out among the rest. The best of all cruising becomes an everyday reality in a Formula Performance Cruiser. Elegance of design, accelerated pace and smooth, stable performance heighten the sense of expectation for everyone aboard. Formula Cruisers are built with rugged construction for offshore conditions, yet each feature is attuned to pure comfort, while a distinctive aura of luxury prevails throughout. Formula PC cockpit design always encourages friendly gatherings. The generous aft lounge includes tables and filler cushions to accommodate various activities and interests. Directly opposite, the wetbar, topped with beautifully handcrafted Corian, welcomes spontaneous entertaining. Everywhere possible, smoothly finished storage areas contain the gear and personal extras that assure a fully satisfying experience on the water. Formula technology updates include white/blue LED remote control cockpit, arch and hardtop lighting along with LED swim platform lights. Larger LCD HDTV/DVD systems offer the sharpest viewing, and the marine speakers, now enhanced by stainless grilles, are complemented by separate tweeters. There is an iPod/MP3 port at each helm. On the foredeck, the full length sunpads feature Sunbrella acrylic fabric and adjust to form a chaise lounge.

Basic Information
