Manufacturer Provided Description

The Cruisers 3580 Flybridge brings livability, ease of movement, and comfort together in style. The 3580's 13-foot beam offers plenty of space to move about, and ensures stable handling on the water. The 3580 uses molded-in steps rather than ladders. Only two easy steps separate the cockpit from full walk-around, and steps from the cockpit make access to the bridge much safer and easier. The 3580 sleeps up to six people, featuring both a roomy mid cabin and functional dinette, which converts easily to a double berth. The fully-enclosed master stateroom features a double queen-sized island berth and ample locker storage. For added convenience, the head compartment includes a separate shower. The 3580 features a spacious salon with 6-foot, 6-inch headroom and a galley equipped with an extra large refrigerator - freezer, sink, electric stove, and microwave. A top quality stereo system is standard, but five alternate stereo options - ranging from a single-disc to a six-disc CD - are available. On deck, a wraparound cockpit L-seat provides copious seating. The 3580 features a well appointed wet bar. For the fisherman a cockpit tackle center is available, and for the skier an optional extended swim platform (large enough to accommodate a jet ski) is available.

Equipment List

Cruisers 3580 Flybridge Specifications - Standard Equipment - Privacy cover, windshield - Top, Bimini (includes front - side - aft curtains) - Berth, island, forward - Dinette - double berth - Helm seat, custom - Flybridge lounge - Stateroom, amidships,
