SPECIFICATIONS

Overview

The Grand Banks 42 Motoryacht "Andrea Jean" has a very practical layout with a sturdy fiberglass construction, deep water design, and long range capability - all adding up to a complete cruising boat. The Grand Banks semi-displacement hull design, with a fine entry forward, hard chines aft, and a full keel has been proven on waters around the world. The bulwarks surrounding the wide main deck are capped with a sturdy teak safety rail providing safe movement from bow to stern for those on board making it ideal for a couple with children or guests. Her single diesel power (Lehman 120) will cruise economically at 7.5 knots with an approximate 1.5 to 2 gallons per hour fuel burn.

By shifting the house aft and raising the side decks aft, as compared to the Classic, GB gained enough interior space in the Motoryacht to provide increased living space with a spacious, full-width stateroom aft, and two staterooms forward. Out on deck, the raised side and aft decks provide a second alfresco living space over the aft stateroom in addition to the spacious flybridge deck. Access is much more elegant with proper stairs from the forward decks to the aft deck and continuing up to the flybridge. Between her welcoming decks, spacious salon and 3-stateroom layout, the Motoryacht is an excellent vessel for entertaining family and friends.
